Packaging and logistics

Fruit that is packed well and cooled quickly arrives in good condition. This is the path a lot follows, from harvest to loading.

- 01

Harvest

Picked by hand, early in the morning, at the ripeness agreed with you.
- 02

Sorting and grading

Damaged fruit is removed, then the rest is graded by size and class.
- 03

Packing

Carton, tray, sack or bin, under your brand or ours, with a traceability label.
- 04

Pre-cooling

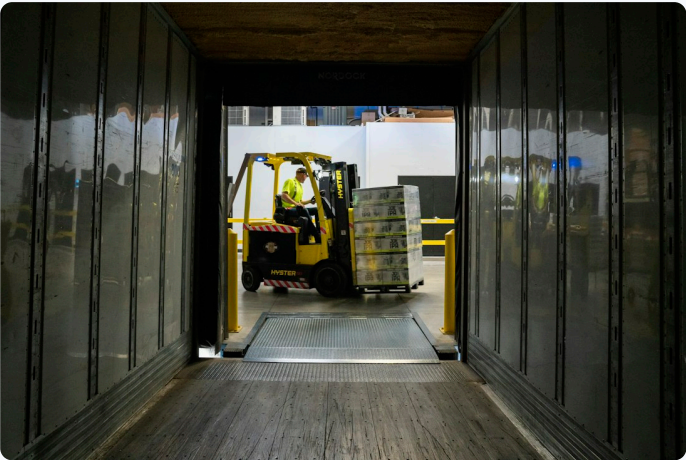

The product is brought down quickly to its transport temperature.
- 05

Palletising

Boxes strapped with corner boards, pallet wrapped and labelled.
- 06

Shipping

Refrigerated container by sea, refrigerated truck or air freight, depending on the destination.

Pallets being loaded at the dock.

Loading guide

Unit	Format	Capacity
Euro pallet	80 × 120 cm	33 per trailer
Industrial pallet	100 × 120 cm	26 per trailer
Reefer container	40 ft High Cube	20 to 23 pallets

Incoterms FOB, CFR or CIF by agreement. Pallet height and weight are set for the product and the destination.
